FRANCES HUGHES

Full-Stack Developer
(www.franceslhughes.com)

About me

I am a passionate junior developer with a strong foundation in React, Material UI, and CSS looking for an opportunity where I can further learn and grow. I thrive in team settings and I am eager to enhance my skill set.

Experience

September 2023 - present | Simmaren

Junior Front-End Developer

- Collaborating with a team of developers in the creation of high-quality web and mobile applications, focusing on frontend development to enhance user experience.
- Developing and implementing responsive user interface components using React, Material UI5, CSS, and JavaScript, following best practices in web development.
- Writing clean, modular, and maintainable code using React, CSS, and HTML

January 2023 - September 2023 | Freelance

Junior Web Developer

- Discussed with clients their project requirements and goals, shared progress updates, gathered feedback.
- Gained hands-on experience with React, Material UI, and CSS, ensuring websites are responsive and compatible with various devices and screen sizes.
- Deploying websites to hosting platforms and configuring domain settings.

2022 - 2023 | Dev Academy (Level 6 NZQA accredited)

Full Stack Web Development Apprenticeship

- Created React web applications autonomously and part of a team
- Followed test driven development practices, wrote unit tests and ran test automation
- Handled authentication and authorization
- Used SCRUM methodologies to work with a team of software developers in a CI/CD environment

Interests

- Binge watching "Frontend Masters" lectures to further develop my frontend skills.
- Keeping up with awwwards.com to see the latest frontend trends and inspiration for new ideas to try out
